To Whom it may concern,

We as neighbors off Rt. 38, Living on School Street here in North Woburn, are very concerned with all this heavy trucking going on and now they want to have More Chemical Trucks driving up and down Route 38, Which has been my family home now for over 40 years.

We in fact have all kinds of trucks, that goes up and down school street all day and night.. The former Dmp is also down there at the end of Merrimac Street were for years they have been dumping. We had chemical spills going to and from the former dump, before it was closed.

Now, they want to bring in over 400 truck a day, going up and down Route 38 with Chemicals, more Problems. We have had more people with forms of Cancer here in Woburn. My Two daughters, One now fighting Breast Cancer at the age of 37 and my other Daughter who has had Kidney Cancer and had to have her Kidney Removed.

Please Consider not allowing this to Cause (to have all theses Chemical Trucks running up and down School and Merrimac Street, for more Cancer to arise here in North Woburn.

Well Thank You and I hope someone can help with this on going Problem

Sincerly

The Family of Joseph Lisacki
of School Street.
